

PETER JODOGNE

386 Hoover Avenue
Bloomfield, NJ 07003
(732) 216-3011
pete.jodogne@gmail.com

OBJECTIVE A position in software engineering with an emphasis on internet technologies, in an environment that encourages advancing one's skills and knowledge.

COMPUTER SKILLS Primary Languages: Javascript, Java
Hobby Languages: C, Go, Rust
Frameworks: React, Relay, Redux
Knowledge: HTML, CSS, SQL, Git, Node.js, Flow, Webpack, Babel, GraphQL

EXPERIENCE Front End Developer **1stdibs, Inc.**
February 2015 - current Manhattan, NY

- Developed the build process for the core React component library that the company uses to keep consistent functionality and styling across its sites where single component implementations would have multiple designs which get built and exported as their own components with interchangeable themes.
- Created a scaffolding tool for npm packages that required a transpilation process, helping developers get started on shared packages used by the frontend team without having to mess with webpack, babel, sass, and storybook configurations.
- Created the initial frontend implementation for the buyer site's cart feature; the "Call Seller" feature, which in itself involved communication, planning, and integration with a 3rd party service provider; and other high-impact features.

Developer **BTX Trader**
February 2014 - December 2014 Manhattan, NY

- Worked as the only developer apart from the CTO in a tiny startup of 4 where I received firsthand experience to the inner workings of developing a product.
- Received exposure to the Bitcoin industry and the associated technologies involved; as well as an understanding of the core concepts of cryptocurrencies i.e. decentralized networks and cryptography.
- Helped deliver, design, and implement financial tools and services on the web for the nascent industry.

EDUCATION Bachelor of Science, Computer Science **Rutgers State University**
Graduated May 2013 New Brunswick, NJ

Courses: Internet Technologies, Software Engineering, Operating Systems
Notable Projects: Multi-threaded bittorrent CLI, Simple FUSE filesystem

ABOUT ME A curious tinkerer and thinker, indiscriminate of topic. Most of my requested vacation days are spent either traveling, mountain biking or some combination of the two. The majority of my entertainment is from watching sixty symbols videos or David Attenborough nature documentaries. Alright, and maybe Game of Thrones too.
